### **Course Description:**

The American Society of Addiction Medicine (ASAM) Criteria were developed in 1991 in response to the need to have an organized manner for providers to communicate and treatment plan. The current version, 2013, of the ASAM Criteria is viewed as a best practice and is the most common tool used for communication between clinicians, referrals, and treatment planning. This course will offer a review and practice of the ASAM criteria for organizing assessment data to identify immediate & multi-dimensional needs, to aid in determination of treatment needs & level of care for individuals with substance-related & co-occurring conditions, focusing on adults. The course is designed to equip the learner in how to use the ASAM criteria to formulate appropriate clinical responses to presenting symptoms/issues; focused on appropriate treatment placement for adults.

### **Course Facilitator:**

Kayleen DePue, MA, LPC, CCS, CADC, EMT, has been working as a Trainer within the Workforce Development department since 2011. Kayleen's career has included providing residential & outpatient case management, counseling and group facilitation, as well as clinical supervision and clinical systems management.

### **Course Objectives:**

The learner will demonstrate:

1. Describe concepts and principles of the ASAM Criteria for organizing assessment data.
2. Explain the 6 assessment dimensions of the ASAM Criteria to assess medical need and patient placement.
3. Identify and recognize distinguishing characteristics to ASAM levels of care.
4. The ability to use the ASAM Criteria in clinical practice.
